

TIC-TAC-TOE

X | X | Ø

O | Ø | X

Ø | X | X

Description

This is a TIC-TAC-TOE game that allows many players to join a running server to either play against other connected players or play against the computer(EASY LEVEL).

1. Start the TicTacToeServer jar file and follow the dialog boxes
 2. Start the TicTacToeClient jar file and follow the dialog boxes
 3. Any machine can have the client jar file and just need to connect to the server's machine's IP address
 4. Any number of players can connect to the server
 5. Enjoy the game!
-

WARNING:: To avoid the server file from always running, there are inputs placed so that it runs finitely, instead of infinitely

Requirements

MacOS

java version "1.8.0_131"

Java™ SE Runtime Environment (build 1.8.0_131-b11)
